features

ARTICULATING FLAT PANEL MONITOR ARMS ON A HIDDEN SLATWALL provide for monitor adjustment, increased visibility and efficient use of space.

35" SPACIOUS WORK SURFACE WITH OPTIONAL TASK LIGHTING is designed for improved comfort, function, and productivity.

LOW PROFILE DESIGN provides a clear view over the console allowing the operator to monitor surrounding areas.

MULTIPLE CABLE-THROUGH HOLES neatly integrate security equipment components.

TAILORED OFFICE DESIGNS using standard and custom colors to match any office decor.

MODIFICATION AND CUSTOMIZING CAPABILITIES making your selection virtually limitless.

The EMCOR Flat Panel Display Console allows users to take full advantage of the benefits of today's flat panel technology. The open architecture design creates more useable space within a smaller footprint than previous models. Its modular capabilities make it equally suited for single desk surveillance applications or larger scale command and control environments. EMCOR Enclosures Flat Panel Display Consoles are the epitome of function and style. Contact your local representative for more information.
